

Black Roses

Darkness rolls in
Barren land
Nothing's like it used to be
Burning cypress
Broken oath
I've taken the road to Hades

There's no turning back, I know

I see churning
In the evil furnace
Fire's burning
But I feel cold
Don't wanna stay alive
The pain that's inside
Is gonna drag me down to hell

Tell me you've brought me black roses
Help me, the sun has gone down
Kill me and let me go

Grief and madness, all I have
Free me from my agony
I seek solace in my death
In decease I shall find peace

Here lies one more wretched soul

Black Roses

I see churning
In the evil furnace
Fire's burning
But I feel cold
Don't wanna stay alive
The pain that's inside
Is gonna drag me down to hell

Tell me you've brought me black roses
Help me, the sun has gone down
Kill me and let me go

Take me

Tell me you've brought me black roses
Help me, the sun has gone down
