

## Devils Act

Torn by me  
You beg to live  
You have done wrong  
Therefore there's no way out of this  
Dirty, vile  
Too late, so wait no more  
You are driven by hate  
Time to reconcile  
Bargaining  
You seek to find redemption  
Don't you know I'll crush your dreams once more?  
Yeah—Close to the end (Close to the end)  
Now you're breaking down  
So you're crying out  
So you're crying out  
If you think you can keep your secrets from me  
Think again  
First in line  
Now we're here  
Sign your name in the book of sins  
And watch the devil's act  
Pray to save your soul

## Devils Act

After you've lost the war  
Now you will feel the wrath, implore  
Time to face the evil beast yeah  
No more grace, just say good-bye  
Now you're breaking down  
So you're crying out  
So you're crying out  
If you think you can keep your secrets from me  
Think again

(Chorus)

Your sad fate has come for you  
Your suffering's so dire  
Bear the cross  
The end you'll meet  
No more dreams or desires  
You wasted all your life  
Can't you see that you're mine  
There's no breaking away
